MELLON FINANCIAL'S INSTITUTIONAL FUNDS SELECT ACCESS DATA SALESVISION® FOR 22C-2 SOLUTION

SALESVISION SEES CONTINUED GROWTH FOR 22C-2 COMPLIANCE

PITTSBURGH, April 3, 2007 – Access Data Corp., the leading provider of enterprise reporting and data management services for the financial services industry, today announced that Mellon Institutional Funds have selected Access Data *SalesVision* to monitor detailed shareholder trading activity in order to detect trading irregularities. Mellon Institutional Funds will utilize *SalesVision*'s online, on-demand 22c-2 offering, which includes use of multiple 22c-2 shareholder compliance rule sets; technical and operational data stewardship for account and transaction shareholder data; and Access Data Exchange (*AccessDX*SM), to provide Mellon with connectivity to financial intermediary platforms and the DTCC SDR interface.

"With Access Data's 22c-2 compliance solution, we know we are getting a proven product offering from an experienced company that understands our business," said Scott Wennerholm, Chief Operating Officer for Mellon Asset Management. "Our decision to go with Access Data was influenced by the on-demand service approach they offer, as well as their experience working with other large, diversified financial services firms like Mellon," added Mr. Wennerholm.

Financial services firms such as Mellon have turned to *SalesVision* for 22c-2 compliance because of its leading edge technology, flexible architecture and on-demand service approach. "It is gratifying that one of the largest asset management firms in the country has placed its trust in Access Data to provide 22c-2 solutions," said Dan Cwenar, President and Chief Operating Officer for Access Data. "We are excited to work with Mellon and look forward to expanding our business relationship in the future," added Mr. Cwenar.

Access Data *SalesVision* provides a comprehensive storage, analysis, and reporting solution for regulatory, financial and administrative management personnel. The *SalesVision* suite of business applications includes Shareholder Compliance (22c-2), Sales Reporting, Compensation Tracking for internal wholesalers and external distributors, CRM Data Integration and Business Intelligence tools. Today, *SalesVision* is used to protect, control and grow the businesses of leading mutual fund companies representing over \$1.5 trillion in assets under management.

Access Data also offers leading financial services firms a proprietary shareholder transaction data exchange network, (*AccessDX*SM), to provide straight through processing of detailed shareholder data among mutual fund companies and financial intermediaries. Utilizing Access Data's proven process for rapid data interface development, combined with proprietary data workflow technology, *AccessDX* connects a broad network of intermediary sub-account platforms to its *SalesVision* suite of applications.
